

HAPPINESS SWIMS IN EVERY TANK

Fish World

EASY TO CARE FOR AND SOOTHING TO WATCH

Why Keep Pet Fish

Keeping pet fish is more than just a hobby — it's a calming, educational, and rewarding lifestyle choice. At Aquassi Ltd, we help families and businesses across the UK experience the beauty, tranquillity, and wellness benefits of owning a professionally designed aquarium. If you're wondering whether a fish tank is right for you, here's why thousands of people choose to keep pet fish.

Popular Pet Fish Species

BETTA FISH – BOLD COLORS AND ELEGANT FINS

Betta fish are famous for their vibrant colours, flowing fins, and bold personalities. They are one of the most visually striking freshwater species available.

Choosing the right pet fish is the first step to creating a beautiful, healthy aquarium. At Aquassi Ltd, we help beginners and experienced aquarists select species that suit their space, lifestyle, and experience level. Two of the most popular pet fish in the UK are Betta fish and Goldfish — and for good reason.

GOLDFISH – CLASSIC, FRIENDLY, AND EASY TO KEEP

Goldfish are classic, timeless pet fish loved by families across the UK. Modern varieties range from traditional common goldfish to stunning fancy breeds with flowing tails and unique body shapes.

AQUARIUM SETUP

Choose the right tank size for your fish

Choosing the right aquarium tank is the foundation of successful fish keeping. The size, shape, filtration, and overall design of your tank directly affect fish health, water quality, and long-term maintenance. At Aquassi Ltd, we help customers across the UK select and install aquariums that match their space, lifestyle, and experience level.

REGULARLY CHECK TEMPERATURE AND PH LEVELS

Clean water is key to healthy fish

Feeding Tips

USE QUALITY FLAKES, PELLETS, OR FROZEN FOOD

Feeding your aquarium fish correctly is essential for maintaining vibrant colour, strong immunity, and stable water quality.

FEED SMALL PORTIONS ONCE OR TWICE A DAY

At Aquassi Ltd, we help customers across the UK understand the importance of choosing the right food type — flakes, pellets, or frozen food — and feeding the correct amount once or twice per day.

OBSERVE SWIMMING PATTERNS AND ENERGY LEVEL

Fish Behavior and Companionship

Understanding fish behaviour is key to creating a peaceful, thriving aquarium. At Aquassi Ltd, we help fish keepers across the UK choose compatible species and design tanks that support natural interaction, reduce stress, and promote long-term health.

Fish are not just decorative pets — they display fascinating social patterns, territorial instincts, and even companionship behaviours when kept in the right environment.

The background is a vibrant blue gradient representing water. On the left, two goldfish are swimming. The top one is pinkish-orange with dark purple patches and large, expressive blue eyes. The bottom one is white with large red patches and smaller, more realistic eyes. Three green lily pads with holes are scattered around the fish. The text is positioned on the right side of the image.

KEEP WATER CLEAN AND STABLE TO PREVENT ILLNESS

Common Fish Health Issues

Keeping aquarium fish healthy requires proper water quality, balanced nutrition, and early detection of illness. At Aquassi Ltd, we help fish keepers across the UK identify common fish health issues quickly and provide expert guidance on prevention, treatment, and long-term care.

ADD NATURAL PLANTS AND GENTLE LIGHTING

Creating a Peaceful Environment

A peaceful aquarium isn't just beautiful — it's essential for fish health and long-term stability. At Aquassi Ltd, we specialise in designing calm, balanced aquatic environments that reduce stress, encourage natural behaviour, and create a relaxing feature for your home or office.

Whether you're keeping tropical fish, goldfish, or a planted aquascape, here's how to create a tranquil and harmonious tank.
